EXAMINER'S REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: None of the prior art, alone or in combination, teach the Applicant's invention of a liquid applicator having at least two frangible ampoules in a body, a porous element which closes an open end of the body through which fluid in the ampoules may pass and a mechanism for flexing the body inwardly to fracture the ampoules substantially simultaneously. It is noted that, after further consideration, it would not have been obvious to modify the Tufts device (given the cited prior art) to have more than one frangible ampoule.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to David J. Walczak whose telephone number is 571-272-4895. The examiner can normally be reached on Mon-Thurs, 6:30- 5:00.
